

Roundtable for Unconventional Gas Projects in SA – Working Group 1

Working Group #1 has been formed in order to assist with the formation of a regional training and supplier hub for onshore oil and gas. One of five working groups resulting from the Unconventional Gas Roundtable held on the 14th and 15th of March 2013, Working Group #1 will:

- *Work with suppliers and operators in the onshore petroleum sector to develop common user training facilities;*
- *Work with suppliers and operators to provide information, assistance and coordination that will facilitate the formation of a service providers hub.*

Date: Friday 2 August 2013	Venue: The Boardroom The Science Exchange 55 Exchange Place, Adelaide Ph: +61 8 8463 3214
Time: 09:00 AM – 3:00 PM	

- Agenda -

1. Introduction

Paul Goiak to welcome everyone and set the scene for “why we are here” and what the proceedings for the day will be.

2. Production training facility

Santos to present preliminary model. Working group to discuss options on how the facility could operate as a common user facility. Group to discuss funding options.

3. Drilling training curriculum

DFEEST to present summary from discussion with Ensign and Saxon followed by group discussion on how to develop standard training curriculum.

4. Safety training for on shore operations

Schlumberger to present a list of common training electives with a view to industry developing a common onshore ticket. Working group to discuss what common elements should form a South Australian “card” or “ticket” that allows operators to move easily between operators and service providers. Also need to address lead to for new employee “readiness to work” – currently quoted by Schlumberger as up to 7 weeks.

5. Facilities discussion

Megan Antcliff to present the Tonsley vision. Operators and suppliers to be invited to think about what sort of land, office, storage requirements they might require in a service hub. This exercise is aimed at facilitating planning and assisting with finding the correct location for the industry to establish itself.

6. SKM Presentation

SKM to present their vision for an onshore training facility.

7. New items and summary of actions
