12th June 2014

Mr Gary Proctor
General Manager HSSEQ & Well Delivery
Senex Energy Limited
GPO Box 2233
BRISBANE QLD 4000

Attention: Sophie Love

Dear Gary,

Application for Low Level Surveillance Status for Geophysical Surveying

I refer to your the letter dated 19th May 2014 in which you applied for low level surveillance status for geophysical survey operations pursuant to section 74(2) of the *Petroleum and Geothermal Energy Act 2000* (the Act).

I also refer to documents submitted by Senex Energy Limited in support of your application.

DMITRE has reviewed the documentation provided against the operator assessment factors under Regulation 16. As a result of this review, DMITRE is of the view that Senex Energy Limited has demonstrated that it has the capability as an operator to achieve low level surveillance status for geophysical surveying.

I therefore wish to advise you of my decision to grant Senex Energy Limited with low level official surveillance status for the regulated activity of geophysical surveying.

If you have any questions in relation to this matter please contact me on (08) 8463 3233.

Yours sincerely
