DESCRIPTION OF AREA

The land comprised in this licence is that part of the State of South Australia described in the Schedule hereto being:

- (a) *land that now is or was formerly the subject of a grant of a freehold estate or of a perpetual Crown lease where such an estate or lease was first granted before 31 October 1975,*
 - (b) *land which is or was formerly subject to a lease under the Pastoral Land Management and Conservation Act 1989 (or any preceding legislation in relation to leases for pastoral purposes) except that this licence does not authorise the undertaking of any act or activity on such land that would be inconsistent with the rights of Aborigines preserved or conferred by section 47 of that Act.*
- or
- (c) *land (other than any reserve under the National Parks and Wildlife Act 1972) which has been, before 31 October 1975, reserved or dedicated for a public purpose and used before that date for that purpose in a manner wholly inconsistent with the continuing existence of common law native title rights.*

CONDITIONS

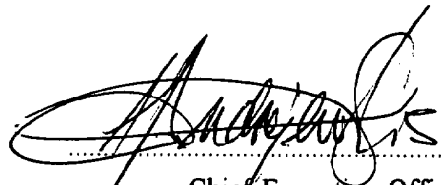

1. The licensee shall at all times comply with:-
 - a) the provisions of the Petroleum Act, 1940 and of any regulations for the time being and from time to time in force under the Act; and
 - b) all directions given to it under the Act or the regulations for the time being and from time to time in force under that Act.

2. During the term of the licence, the Licensee shall carry out or cause to be carried out exploratory operations on the area comprised in the licence in accordance with such work programmes as are approved by the Minister from time to time. These exploratory operations shall include *but* not necessary be limited to:-
 - a) in the first year of the term of the licence, geological and geophysical studies at a total estimated cost of \$20,000 (twenty thousand dollars);
 - b) in the second year of the term of the licence, conduct aeromagnetic and ground surveys at a total estimated cost of \$30,000 (thirty thousand dollars) and by the end of the second year of the term of the licence sufficient technical and financial resources must be secured and evidence forthwith must be supplied to the Department of Mines and Energy in order to complete the remaining three year program;
 - c) in the third year of the term of the licence, review and analysis of all currently available data at a total estimated cost of \$20,000 (twenty thousand dollars);
 - d) in the fourth year of the term of the licence, 160 kilometres of seismic surveying at a total estimated cost of \$800,000 (eight hundred thousand dollars).
 - e) in the fifth year of the term of the licence, the drilling of one exploration well at a total estimated cost of \$800,000 (eight hundred thousand dollars).
3. Within sixty days after the end of each year (being the period of twelve calendar months ending on the anniversary of the date upon which this licence comes into force), the Licensee shall submit to the Minister a full and complete written statement of expenditure actually made or caused to be made by the Licensee during that year upon approved exploratory operations. This statement of expenditures shall be accompanied by a written opinion on the veracity of the statement from an auditor whose qualifications and independence from the Licensee are acceptable to the Minister.
4. In the event that the Licensee during any year of the term of this licence (a year being the period of twelve calendar months ending on the anniversary of the date upon which the licence comes into force) fails to comply with the exploratory operations requirements of this licence, it is an express term of this licence that the Minister then may at his discretion either cancel this licence or authorise such variation to these requirements as the Minister thinks fit.
5. An application to drill a well within the area comprised in the licence shall include written proposals of the Licensee, in relation to the bringing under control of the well, in the event that effective control of the well is lost, and to the clean-up of oil spills, including financial proposals such as well control insurance, public liability insurance or other means to cover the costs involved in such operations.

- 6. Not less than thirty days before the commencement of each year (being the period of twelve calendar months ending on the anniversary of the date upon which this licence comes into force), the Licensees must arrange to meet, in person, with the CEO or his representative to review the progress of the programme of exploration for the current licence year, and to present a proposal for the programme of exploration for the forthcoming year.
- 7. If at any time the work being carried out or intended to be carried out by, or at the cause of, the Licensee is in the opinion of the CEO not in accordance with the sound principles and practices of petroleum exploration, he may give the Licensee written directions as to the work carried out or intended to be carried out, and the Licensee shall comply with those directions.
- 8. In addition to the reports specified in the Petroleum Regulations, 1989, the Licensee shall promptly prepare and submit to the CEO in a form acceptable to him, detailed reports on all exploratory operations done or caused to be done by or on behalf of the Licensee within and in relation to the licence area.
