

File Ref: 2004/00092
Doc Ref:

14 September 2004

Mr. Ross Wecker
Exploration Manager
Innamincka Petroleum Ltd
PO Box 2378
CHERMSIDE QLD 4032

Dear Ross,

LOW LEVEL OFFICIAL SUPERVISION CLASSIFICATION: WELL OPERATIONS

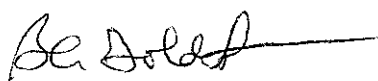

Pursuant to the delegated powers, I under Section 74(4) of the *Petroleum Act 2000* the following activities associated with well operations undertaken by Innamincka Petroleum in your licence areas within South Australia are classified as low level official supervision.

- Construction and restoration of all work sites associated with drilling and well operations, such as well sites and access tracks;
- Drilling and well completion activities;
- Initial production testing such as Drill Stem Testing;
- Wireline activities; and
- Pre-wellhead production activities.

Under this classification, please be aware of your activity notification obligations for well operations pursuant to Regulation 18 of the *Petroleum Regulations 2000*.

Please note that under current policy, in light of your company's low level official supervision classification for well operations, pursuant to Section 74(5) your licence fees for exploration licences will be 50% of the prescribed fee as from the date of the commencement of next licence year.

Yours sincerely

Barry Goldstein
